- Runners-up in DHIRUBHAI AMBANI INTER COLLEGE TOURNAMENT (U-23) & (MINOR) TOURNAMENT organized by CBCA (The Central Board Of Cricket, Ahmedabad).

ABOUT ME

A highly organized and Hard-working individual looking for a responsible position to gain practical experience. To secure a challenging position in a reputable organization to expand my learnings, knowledge, and skills. To pursue a job opportunity in a competitive environment that will challenge me to push my boundaries and expand my knowledge in the field of computer engineering while allowing me to add value to the dynamics of the company.

EXPERIENCE

KRUPA INFO SERVICES | Frontend Developer

Jan 2024 – Present | Ahmedabad, Gujarat

- I developed various components for the Zwaara Healthcare System, such as medical and non-medical sections, login pop-ups, and doctor appointment forms. These components utilized hooks concepts like useState, useEffect, useRef, and others.
- I added features like booking doctor appointments, managing fees, user authentication, notifications, and shared state across different components using Context.
- I worked closely with the backend team to integrate everything smoothly.
- Tech Stack: ReactJS, GitHub Desktop

PROJECTS

REACT-PORTFOLIO-WEBSITE |

Tech Stack : ReactJS

- A React Portfolio website is a dynamic platform created with ReactJS for effective resume building.
- This Project leverages React's component-based architecture to showcase skills, projects, experiences and contacts information.

ZWAARA MEDICAL HEALTHCARE SYSYTEM |

Tech Stack : ReactJS

Live Demo : <https://zwaara.netlify.app/>

- Developed a dynamic, user-friendly web application using React.js, leveraging hooks and other React functions, such as map and filter, to optimize component rendering and state management.
- Integrated a modal popup in the login process to enhance user experience and ensure a smooth, efficient authentication flow.

HOME-HUB |

Tech Stack : Flutter

- Created a feature-rich mobile app using Flutter, a popular cross platform framework. The app's main aim was to help working women sell items and earn income. I connected the app to a MySQL database through a PHP API for smooth communication and efficiency
